FIG. 2j

FIG. 2i

FIG. 2k

Inventor: Jean-Yves Blondeau

Publication Number: US5926857

Product Description: The Armor with Rollers is one sure way to make everyone jealous at your next open roller skate night. This get up includes a pair of gauntlets extending from the user's elbow to beyond the hand, having rollers at both ends. The rigid knee pads equipped with rollers, as well as multiple other rollers strategically placed from the neck down provide multiple different skating styles, including land swimming as shown in FIG 2g. Buyer beware, brakes not included.

Ready, set, let's roll!

CDN can help guide you through the patent process as well as assist with any final design changes before a patent is submitted.

CNC MILLING

FROM CONCEPT TO PRODUCTION

CNC Milling Process Guide 2019: Full Process Explained

In one form or another, the CNC milling process is involved in the vast majority of tangible products in modern industrial manufacturing. While it only directly makes a small fraction of parts, it's the most common method to create tooling, so...

POLYUREA COATINGS

Polyurea Coatings | What is Polyurea and what is it used

...

Polyurea spray coatings can add some really amazing properties to otherwise fragile structures in a matter of minutes. If you've never seen it, a video search can show loose stacks of concrete blocks, Styrofoam coolers, and even watermelons made...
